

## **A clip-clop AND CARBON NEUTRAL visit of Marrakech ....**

These Calèches "horse-and-cart" are the traditional means of transportation in Marrakech, rendered possible because of the flat plain on which the city was built.

This "Gardens & Panoramic Tour" of Marrakech, lasts approximately 2 hours 30 minutes and includes the Menara Gardens, the Majorelle's botanical Gardens and the city centre.

You can seat 2 people per Calèche for more comfort... and romance or 4/5 people for more fun and company! The 5th person seating up front and next to the driver.

Another itinerary possible is inside the Médina, allowing a "view from above" of the daily life in the old city.

This trip is connected mainly to hotels in City centre.

If hotel is outside (Palm Grove for example) this involves, a return coach transfer to the stating point of the Calèches.

***Important note*** - Please make sure that no one is allergic to horse hair among your clients..
