Baltic Accommodation

New in Riga – Dome Hotel & Spa, 5*

This stylish and elegant hotel enjoys a perfect location in the heart of Riga's charming old town, only a few steps away from a variety of restaurants, bars and shops.

Tucked away in quiet Miesnieku Street, Dome Hotel & Spa occupies a 400-year-old building that has been converted into an exceptional boutique hotel making full use of its architectural splendour. Respectfully restored and rebuilt, it achieves a unique synthesis of historic heritage, modern interior design and 21st-century technologies. This historic hotel provides simple luxury and unique elegance not found in other hotels in Latvia.

Restaurants

Restaurant 'Hospitalis'- pseudo hospital or a medical misadventure with a kitchen

In the heart of Old Riga - Dome Square, the doors opened at restaurant 'Hospitalis' where everyone can enjoy a pseudo hospital atmosphere. Its creation involved Latvia's largest hospitals and Medical history Museum. If the thematic restaurant creates any doubts about a united sense of style, then in 'Hospitalis' it is of fine balance between irony or black humour of the doctors and a high-class, fine dining restaurant, reflected by its interior design, décor and menu.

Incentive idea in Latvia

Experience the medieval village Godesverder

Every visitor of the medieval village Godesverder will be armed and can participate in different competitions: spearthrowing, boar & fox hunting, axe throwing, armored battle race, sword battle basic training, battle skills training round, medieval Livonian table and gambling games. Each and every smallest thing provided on the table in front of you and all around as far your sight can reach, has an original within the archaeological heritage of XIV century Livonia. Site, space, sound, sight, sensation and taste – all of these are chosen and created with the deepest piety for historical authenticity.
