2025 Incentive

Belgium, known as the "Essence of Europe," is multicultural and multilingual. Belgium's inhabitants are kind and inviting; despite having three official languages, they can easily speak their fourth unofficial language which is English. Inevitably, these are just the main languages among the locals you will find plenty more. The Belgians speak your language!

You could embark on a romantic cruise, hunt for diamonds, eat waffles, visit a festival in Binche, get lost in a castle in Namur, discover antiques at an outdoor market in Liege, and visit a magnificent art museum in Brussels all in one day.

Program day by day
