The hydrotherapy circuit of the **Hotel MiM Sitges Spa** is a unique thermal experience, thanks to the combination of thermal water techniques that activate our circulation, relax our body and mind, and that allow you to achieve an absolute sensation of peace and well-being.

The circuit consists of a Finnish sauna, steam bath, sensations shower, Swimming pool, cold plunge pool, spectacular salt water pool and heated lounge chairs to relax and cool off.

The pools in that circuit use a saline hydrolysis system to sanitize the waters, using only two natural, non-polluting elements, thus showing respect for the environment: water and salt.
